# What makes you tick?

The new Galaxy Watch Active2 adapts to keep pace with you: with customisable faces and straps, it keeps you in touch and on top of your goals without a phone in sight. Whether you're working out, working late or working out where to head for date night, the Galaxy Watch Active2 is here to help you do your thing.

## Time to customise

It's easy to coordinate your watch with your look, every day. When you snap a picture of your outfit, your Galaxy Watch Active2 will create a stylish watch-face design to match. Plus: each watch strap you buy comes with a QR code. This links to the Galaxy Store, where you can download a watch face designed especially for your strap.

## Leave your phone at home

Take your contacts, messages and music with you — all without your phone. The Galaxy Watch Active2 features an LTE-powered life assistant, designed to give you the freedom to stream on the go and download music, ready for wherever your day takes you.

## Focus on fitness

Whether you're a swimmer, runner or an all-round fitness junkie, the Galaxy Watch Active2 is ready to keep pace with you. Automatically track up to seven exercise styles — such as cycling and rowing — and manually track dozens more. Plus: challenge yourself with the running coach function, which offers practical advice in real time.
