Michelle Darbro isn't a politician. She's a firefighter who understands that serving the community means putting people first – not political agendas. She'll fight for hard-working families.

Too many hard-working, middle-class families have been left behind by a system that favors the wealthy and well connected. We need a leader who will change that.

Michelle knows that's a fight we can win together.

FIGHTING FOR US

Michelle Darbro's Priorities for Our Families

FIX OUR BROKEN TAX SYSTEM. The tax system in Illinois is rigged against middle-class families. Michelle will fight to make millionaires and billionaires pay their fair share and give the middle class a break with property tax and income tax relief.

KEEP FAMILIES SAFE. As a firefighter, Michelle works to keep families safe every day. As our state representative, she will fight to keep illegal guns off our streets, support more funding to combat gangs, and make sure first responders have the critical equipment and resources they need to keep our community safe.

BRING BACK JOB TRAINING IN SCHOOLS. Illinois has a serious shortage of workers for jobs paying \$35 an hour or more. Michelle will bring back vocational and technical education courses to our schools to prepare students for the jobs of the future.

STAND UP FOR OUR FIRST RESPONDERS. As a firefighter and paramedic, Michelle knows how important first responders are to our community. She will fight to protect the health care, disability benefits, and retirement security of first responders. She'll also work to add more police officers to our streets.
