

Choose superior experiences, every time, with Samsung and McLaren

World-class design, for your home and your driveway

SAMSUNG

QLED

The ultimate upgrade

We're redefining what's possible with TV. Again.

Thank you for visiting us at the McLaren GT Australian Launch. As the supporters of an event focussed on the future of luxury design, we're proud to have introduced you to our iconic flagship model: the 98" 8K QLED TV. Much like the GT, the 98" 8K QLED is poised at the nexus of art, technology and experiential thrills. With a sweeping vista of a screen featuring over a billion shades of colour, 33 million pixels and Quantum HDR, its power is peerless.
