Never Backs Down,  
Never Stops Fighting for **US**

# RITA MAYFIELD Is Committed to Building Stronger Communities and a Brighter Future

When Rita Mayfield was in high school, she became a community volunteer and dedicated herself to building a better community for all. Rita has spent her life working to create stronger communities and a brighter future for our families.

Now, more than ever before, we need strong leaders like Rita who stand up for us and push back against the dangerous Trump agenda.

Rita has fought back, working to expand access to affordable health care, protect our environment, and create good-paying jobs here in our community.

She's been effective because, when it comes to working for all of us, Rita never backs down and never gives up.

## Democrat Rita Mayfield's Agenda for US

**Create Good Jobs.** Rita will continue to fight to pass legislation that improves employment opportunities for every person in our district, protects the rights of workers, and helps businesses thrive to create much-needed jobs.

**Protect Our Environment.** Rita believes that it's our duty to maintain a clean and healthy environment for all people for generations to come, without excuse or exception.

**Support Our Schools and Students.** Rita knows that a good education is "the great equalizer." She will continue to fight for every piece of legislation that extends and improves education for our children.
