At Tendril we're always evolving. We're so excited to launch our new website, which celebrates and showcases that evolution! Major shout-outs to our amazing pals at [heliosdesignlabs](#) for creating our new website with us 💖

Make sure to turn up your speakers and test out the WebGL toy on the landing page! The first in an ongoing series of code experiments that we will be releasing over the coming months.

AMERICAN GODS x LA SHORTS

2017 Official Selection at the LA Shorts International Film Festival

Los Angeles Shorts International Film Festival ranks among the most prestigious and largest international short film festivals in the world. The festival is accredited by the Academy of Motion Pictures Arts & Sciences, the British Academy of Film and Television Arts and the Academy of Canadian Cinema and Television (ACCT) presenters of the Canadian Screen Awards.

NOW ON STEAM

Tendril's two VR projects Grand Expanse and Sankhara are now available for download on Steam.

[Grand Expanse](#) is a VR music video co-created with director Drew Lightfoot for Canadian music legend Martina Sorbara's ethereal song by the same name.

[Sankhara](#) explores the potential for poetry in VR by combining one of TS Eliot's famous poems with a journey through majestic galaxies far away.

Both projects are free to download. Brush off your VR headset and check them out!
