Style out the fickle transitional months with the British-made COOMBS. Hooded and over-knee length, this oversized parka-mac hybrid is determined to keep you cosy. Look inside: there's a detachable quilted gilet, so you can adapt your look to combat whatever the Great British weather throws at you. The coat's cotton-lined too, to keep you feeling fresh but never chilly. Stash your must-haves in the deep patch pockets, and get out there.
